

Government General Degree College, Mangalkote

Report of the Tree Plantation Programme organized by NSS Unit 1 GGDC Mangalkote on 06/04/2023

REPORT

1. Aims and objectives of the Programme: In this growing industrial and technological era, pollution has become a paramount problem. Tree plantation is important to save our earth from destruction and the lives surviving on it. Trees provide us oxygen, filter CO₂ and prevent soil erosion, maintaining the ecological balance and many more. Also, they provide us food, shelter and save us from global warming. Thus, it is imperative to sensitize college students about the environment. The NSS unit of the GGDC Mangalkote planned and organized tree plantation event on 06th April, 2023 under “Green Campus” initiative with the following objectives:

- To create and maintain a healthy environment and ecosystem
- To increase the availability of nutritional supplements provided by trees
- To reduce emitted green house gases in the environment

2. Proceedings of the Programme (Description):

a) Name of the programme: Tree Plantation Programme

b) Date: 06.04.2023

c) Time: 11 A.M. onwards

d) Venue: Government General Degree College, Mangalkote Campus

e) Organizers of the Programme: NSS Unit

f) Brief Summary of the Programme: On 06th April, 2023, NSS Unit of GGDC Mangalkote successfully completed the event of Tree Plantation under the National Service Scheme at college campus. The event began with the welcome lecture by Dr. Pradipta K. Basu, Officer-In-Charge of the college. Then a speech has been given by the NSS Programme Officer, Mr. Aritra Rudra. Convener of Environmental Awareness Unit advised all volunteers to think differently for the society to make positive changes and to make improvement. After the inspirational words, all volunteers move towards the place where tree plantation took place. The first sapling was planted by the NSS programme officer and after that total tree planted by all others including teachers, volunteers was more than 15 on the day. All were happy and felt proud after the tree plantation event was completed. At the end, the programme was finished by singing the NSS song by coordinator and participated volunteers.

3. Participants: Students participated in the programme with great enthusiasm. It was attended and led by the Officer-In-Charge of the college; NSS Programme Officer,

Mr. Aritra Rudra, Assistant Professor of History, and Mr. Hirak Kumar Sinha Mahapatra, Assistant Professor of History.

4. Result of the program: Students and teachers participated actively and enthusiastically in the programme and vowed they would take care of the saplings planted on that day.

5. Conclusion: Therefore, we conclude that trees should be regularly planted to save the mankind and the animal world. Tree plantation and its after-care is a pleasing work too. We can get much pleasure in planting trees and in taking care of them. The central conclusion from the analysis is that role of plantation forests, in meeting future wood and fiber demands, will increase during the next 30 years, irrespective of future rates of plantation establishment. Trees in the ground already largely determine wood supplies from forest plantation for the next decade. In many countries, a considerable increase in areas of plantation forests reaching harvestable age will occur. Beyond 2010, plantation production forecasts are increasingly dependent on assumptions of new planting rates, and on assumptions of improvements in annual increments. There is scope, depending on policy decisions and markets, for forest plantations to play a dominant role in industrial wood and fibre supplies. A more likely scenario is that the proportion of forest plantation-grown wood will increase, but natural forests will continue to supply a modest majority of industrial round wood.

A significant contribution of the NSS Unit of the college in this particular tree plantation activity was the involvement it ensured of the local children in the initiative. NSS Unit of GGDC, Mangalkote believes that community involvement is the key to success in such initiatives.

NOTICE

No.MGC/NSS/6/23

Date: 28.03.2023

It is hereby notified for the information of all concerned that the NSS Unit of this college is going to organize a **Tree Plantation Programme** on **06.04.2023** at the **Pindira Village**. This programme is part of the **Afforestation Drive** of the NSS Unit of the college (in association with IQAC) to promote greenery in the neighbouring villages.

NSS volunteers are asked to participate in the programme.
