Sir,

The Academic Audit Reports for the academic session 2021-22 & 2022-23 of Government General Degree College, Mangalkote submitted by your good office are quite decent and overall academic qualities are very good as per our knowledge and belief. The innovative best practices like 'The Antarik Initiative' and 'The Parasparik Initiative' introduced by the college are really praiseworthy. The social outreach inclusive growth practices related to academic up gradation and academic performance of each and every department has strengthened the academic ambience of the college.

Those reports are approved by my office.

Yours sincerely,

Registrar

38. Implementation of e-governance in areas of operations:

E-governance area	Details	
Administration	Management of the administration is carried out through the HRMS portal	
	developed by GoWB. It has mechanisms for application for leaves and	
	submission of Self Appraisal Report (SAR) of individual faculty members	
	which is checked and ratified by the HOI before forwarding it to the Higher	
	Authority in online mode. The SAR documents all the activities of the teachers	
	on a yearly basis.	
Finance and Accounts	The IFMS portal designed by the GoWB enables the mechanism of online	
	processing of salary of all the employees of the institution. It also has facilities	
	for intimation of amount the employee wants to be deducted as GPF from	
	his/her salary to the DDO. Application of loans against GPF and advance for	
	LTCs are also available in this portal. Furthermore, the employee can submit	
	nominations online for various financial aspects which the HOI has to forward	
	to the Higher Authority. This safeguards the family of the employee against	
	unforeseen circumstances. Online pension system has also been enabled by the	
	GoWB in the portal to facilitate the process of disbursement of financial	
	benefits when an employee gets superannuated.	
	The same portal is used for transacting Government Funds (from the	
	Department of Higher Education, GoWB) for various purposes like	
	infrastructure augmentation, purchase of books and other expenses required for	
	proper functioning of the institution.	
Student Admission and	The entire process of admission including advertisement, application,	
Support	deposition of fees, publication of merit list, etc. are carried out digitally	

	through the online admission portal of the college. Application of scholarships has also been digitized through various online portals (for different scholarships) developed by GoWB.
Examination	The regulations and notifications regarding examinations are communicated by the affiliated university to the HOI of colleges by emails. The form fill-ups and registration process that follows are carried out in the online portal of the university. Submission of marks of mid-semester internal/end-semester final examinations (theory and practical), whichever is applicable as per university notification(s), is carried out through the same university portal designed for examination related matters. Notification and online submission of application for review of answer scripts are also facilitated through the same e-mechanism.

43. Describe at least two institutional best practices:

- 1. The Antarik Initiative In Bengali, the term 'antarik' has two meanings: the first is 'internal' and the second is displaying 'sincerity' of feelings. Through the Antarik initiative the college has developed a bottom-up system of administration that prioritizes student needs and well-being, especially in a rural context and in the post-Covid scenario. Through a variety of initiatives and strategies the college ensures the active and informed participation of the students in the proper functioning of the institution, ensuring access to quality education and available support system through empathy, mentoring and counseling. It is also a strategy of maintaining institutional equilibrium via a system of just and cooperative exchange between all stakeholders the students, teaching and non-teaching staff.
- 2. The Parasparik Initiative In Bengali, the term 'parasparik' refers to 'mutual, reciprocal and interdependent relationship' with the others. The college believes that an educational institution in today's times cannot survive or contribute to the well being of the students and the society at large unless it interacts and establishes strong reciprocal bonds with other educational institutions in the neighbourhood such as schools and colleges, the community and local administrative or civic bodies. Such continuum is maintained through social outreach and extension activities, MoUs and other academic and non-academic exchanges which are beneficial for the sustained growth of all parties involved. This is also a way of recognizing the social responsibility of the institution towards its neighbouring institutions, the community and the human society at large.

Through both the initiatives, the college establishes a meaningful and productive link between the internal and the external entities, the institution and the wider society towards collective good and well being.
