Annual Report of the NSS Unit (2021-2022)

Objectives: The NSS Unit of the college is committed to ensure of the well-being of the students and the community at large through:

- Prevention of loss of lives due to Covid 19 infection through vaccination,
- Sensitization drives relating to structural social problems or age-old evils affecting the community and the vulnerable sections in particular. Instilling of the sense of pride and belongingness to one's own nation is also a part of such sensitization drives.
- Campaigns to create awareness about issues of health, hygiene, sanitation, cleanliness and make the community adopt strategies to alleviate conditions, natural or man-made, causing health hazards.
- Drives to instil environmental consciousness towards building a sustainable future through community involvement in addressing issues or situations causing environmental degradation and ecological crises. Advocacy to ensure biodiversity conservation is also a part these initiatives.

Initiatives:

- **Social Responsibility Initiatives:**
 - Promotion of awareness and protection of rights of the disadvantaged sections of the society such as the aged population, and
 - Promotion of national consciousness and sense of patriotism through routine activities such as celebration of Independence and Republic Day.
- **Health, Hygiene, Sanitation and Cleanliness Initiatives:**
 - Organization of a Covid 19 vaccination camp to disseminate the benefits of vaccination to the people in the local community, including the students,
 - Promotion of Covid awareness to prevent spread of the infection amounting to loss of valuable lives, and
 - Promotion of awareness about basic hygiene, sanitation and cleanliness, lack of which amounts to vector borne diseases such as dengue and malaria, and communicable diseases such as HIV-AIDS.

• **Environmental Initiatives:**

- Promotion of consciousness about the negative impact of the widespread loss of greenery and forest cover through afforestation drives, and
- Instilling of consciousness, among the younger generation, about the healthy interaction between the humans and non-humans (such as birds) as the way towards building a sustainable future.

Target Groups/Areas:

- Inhabitants in the local villages
- Children and students in the primary and secondary schools in the neighbourhood
- Service providers and receivers in local government hospitals
- Stakeholders in local administrative bodies and municipality areas close to the Mangalkote block

Outcomes:

- The college through the NSS Unit successfully organized a Covid 19 vaccination camp. The beneficiaries included a large number of students enrolled in the college.
- As a result of the social responsibility initiatives local villagers displayed greater awareness about social evils affecting the disadvantaged sections of the society such as the aged, women and so on. Through the Caring for the Aged campaign students were able to establish healthy interaction with the older generation, initiate dialogue and spend quality time with each other, leading to mutual communication and admiration of each other's attributes and qualities.
- Local villagers and stakeholders in local administrative bodies learnt about the everyday strategies that will help them tackle the spread of vector borne diseases such as malaria and dengue. Several children and adults learnt about the importance of using masks and sanitizers, and maintaining physical distance as the only way of saving the community from the risk of Covid 19 infection.
- The target groups acquired knowledge about the environmental challenges affecting the human society at large and how they can contribute to the present and future well being by planting trees and restoring the forest cover, and think about the non-humans such as birds and insects which are crucial for maintaining ecological balance and conserve biodiversity, continuously being endangered at the altar of rampant industrialization and technologization.
