Government General Degree College, Mangalkote
Parent Feedback Analysis Report, 2022-2023

Introduction:

The Parent Feedback Report presents the feedback analysis collected from the parents of 18 students involved in the institution for the academic session 2022-2023. The aim of the feedback was to gain valuable insights into the experiences and perspectives of the families to help us understand the impact of the institution and identify key areas of improvements. The feedback analysis covers various aspects, including teaching-learning experience, delivery, facilities and overall effectiveness in meeting the needs of the students.

The primary objective of the report is to determine the effectiveness of the college programmes, campus facilities, support services, and experience. By understanding the strengths and areas for improvement from the parent point of view, the institution can make informed decisions to enhance the quality of education for current and future batches of students.

The following analysis is based on the compilation of the feedback forms collected during 2022-2023 session.

Detailed Parent Feedback Analysis

1. THE TEACHING-LEARNING PROCESS IS SATISFACTORY:

Table 1: shows that 100% of the respondents are satisfied with the overall teaching-learning process of the institution.

Table 7: represents that 89% of the respondents are satisfied with adequate recreational and sports facilities offered by the college, whereas 11% of the members are undecided on this issue.

8. SAFETY AND SECURITY WITHIN THE CAMPUS IS PRIORITIZED:

Table 8: shows that 100% of the parents are satisfied with the way safety and security is prioritized inside the college campus.

Inference: Through the analysis of Tables 1 to 8, it can be determined that more than 90% of the parents are positively satisfied by the facilities and efforts of the college in raising the standards of education through the holistic development of the students. Though there are also some areas of where the college can improve, which were further pointed out by the parents. These are as follows:

17% of the respondents felt that the college library along with another 17% thought that the laboratories required upgradation. 8% of the parents thought that the college's physical infrastructure could be improved. The next room for improvement was recorded in facilities provided for female students, where 17% of respondents felt it was inadequate. Further, 8% of parents felt that the grievance redressal cell could be enhanced, while 8% of them felt that guidance and mentoring system can also be improved. The last areas of improvements were recorded in the college drinking water and canteen with 8% of respondents voicing their concern and finally 34% of parents' felt that the toilets and special facilities for female students could be also improved.

Conclusion: The Parent Feedback Analysis Report, informed by the reflections of 18 participants, provides a multifaceted view of the college. The insights gathered highlight both the strengths and areas for development within our institution and areas of improvements, offering a balanced perspective on the educational journey it offers. The positive feedback underscores the dedication and competence of the faculty members, the relevance and rigor of the curriculum, and the supportive campus environment that fosters both academic and personal growth.

Recommendations:

1. There should be further improvement in academic support facilities like library and laboratory.
2. Toilets in general and special facilities for women students should be improved or created if not available.
3. Grievance redressal and guidance and mentoring system should be more robust.
