SEMINAR
on
RAPID DIAGNOSTIC TESTS

on 16.02.19
AT: 01.00 P.M.
Venue: Seminar Hall, 2nd Floor

ABOUT THE PROGRAMME:

There has been tremendous developments in the field of rapid diagnosis which mainly targets the economically deprived countries and documentation of the endemic diseases therein. It serves as a preventive measure for a pandemic breakout and also helps in large volumes of tests to be carried out by researchers/medical practitioners in a particular geographical area. Further technological developments in this sector can increase the sensitivity and ease of operation of these tools. Affordability is also an important factor which the researchers have to keep in mind while working in this area. The programme aims to make the aware of these research developments and their roles in boosting the health sector in the future.

TARGET AUDIENCE:

U.G. Students of GGDC, Mangalkote

SPEAKER:

DR. DEBRAJ BISWAL

ASSISTANT PROFESSOR,
DEPARTMENT OF ZOOLOGY,
GGDC, MANGALKOTE
