ABOUT THE PROGRAMME:

Decision-making is a challenge for someone who has just stepped out of the boundaries of a school into a college. Though a few are gifted in this domain most get stuck when they have to take a decision. More so, when the decision is important that will have life-long impacts. Choosing the right career option is one such example. There are many more areas, often overlooked, where a student suffers from indecisiveness. Decision-making is a soft skill that can be developed when practiced in the right way. The current programme aims to highlight all these issues .
